Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

On April 26, 2026, at 1537 hours, McKinney Police Department responded to 1004 E University Dr EB (Racetrac) about a male, later identified as Kasey Carroll (WM 8-9-96), throwing items in the store and carrying a large stick. Carroll was acting erratically and later was seen near the edge of the roadway of US Hwy 380. Officers contacted him and he seemed under the influence of an unknown substance.

It was deemed that Carroll needed to be taken to a hospital based upon his erratic behavior. He was uncooperative with EMS or Police, so he was placed into a restraint device called the WRAP and then placed in an ambulance for transport to a hospital. Officers did not use any physical force on Carroll; he was only secure in the WRAP. Carroll told EMS personnel that he had used methamphetamines.

Once in the ER at Medical City McKinney, Carroll’s medical condition began to decline. Carroll was moved into a trauma room so that he could be sedated and intubated due to him having a possible seizure. The WRAP was removed from his body and Carroll eventually went into cardiac arrest. MCM staff performed life-saving measures. Carroll was pronounced deceased at 1728 hours.

The Texas Rangers were notified of this incident and completed an investigation.

The autopsy report concluded that Carroll died as a result of the toxic effects of methamphetamine and ethanol.

The Texas Rangers presented the investigation to a Collin County Grand Jury. The Grand Jury failed to issue indictments and collectively determined no criminality transpired during the death of Carroll.
