Attempt gain possession officer's weapon:	No		

Was the deceased under restraint in the time leading up to the death or the events causing the death?

Under Restraint: No

Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

Inmate: Sherena Tennison SO#: 138002
Date of Initial Medical Emergency: September 16, 2026
Approximate Time of Medical Emergency: 0036 hours
Facility: Gregg County North Jail Facility
Date of Death: September 27, 2026
Approximate Time of Death: 10:33 p.m.

On September 16, 2026, at approximately 0036 hours, detention staff and medical personnel responded to the housing area after Inmate Sherena Tennison reported that she felt as though she was going to pass out and requested a breathing treatment. Tennison was escorted to the medical unit, where medical personnel initiated a nebulizer breathing treatment. Prior to treatment, her oxygen saturation (SpO) was recorded at 54 percent, with a pulse of 72 beats per minute. During the course of treatment, her vital signs were recorded as blood pressure 122/71, SpO 90 percent, and pulse 84 beats per minute. Tennison subsequently became unresponsive and was found to have no detectable pulse or respirations. CPR was initiated immediately, and emergency medical services were contacted. An automated external defibrillator (AED) was applied, and CPR was continued until EMS personnel arrived. EMS assumed care and continued resuscitation efforts. Tennison was transported to CHRISTUS Good Shepherd Medical Center Emergency Room, where she was admitted and placed on a ventilator to assist with her breathing. Tennison remained unconscious and dependent on the ventilator until September 27, 2026, when her family made the decision to remove her from life support. Tennison stopped breathing at approximately 10:33 p.m. that same day. Judge Tim Bryan conducted the inquest. The Texas Rangers were notified and are investigating the

circumstances surrounding Tennison's death. An autopsy was ordered and will be performed at the Southwest Institute of Forensic Sciences in Dallas. The results of the autopsy and any additional investigative findings will be provided as they become available.
