Was the deceased under restraint in the time leading up to the death or the events causing the death?

Under Restraint:	Yes, mark which restraint devices were used

Type of restraint

Type of Restraint:	Leg Shackles

Summary of Incident

Summary of How the Death Occurred: (max. 30,000 characters)

Summary:

On 07-09-2018, at approximately 17:17 hours, Grayson County Sheriff's Office (GCSO) Inmate James Ronald Ragland (# 99210), a 69 year old white male, died in room #824 at Texoma Medical Center (TMC), in Denison, Grayson County, Texas due to complications from multiple chronic medical conditions which included, an acute Respiratory Distress Syndrome and septic shock. At the request of the GCSO, Texas Ranger Brad Oliver responded to TMC and initiated a Custodial Death Investigation. Grayson County Justice of the Peace Larry Atherton was called to room #824 to hold an inquest. Judge Atherton subsequently ordered an autopsy be performed on Ragland by the Dallas County Medical Examiner's Office in Dallas, Texas.

Ranger Oliver's investigation determined Ragland had been in TMC continuously since his admittance on 05-24-2018. This was Ragland's third hospital stay since his arrest and incarceration in the Grayson County Jail on 09-04-2017. GCSO had extensive records documenting Ragland's declining medical health since his incarceration. Ragland's family had provided TMC with a Living Will signed by Ragland on 05-27-2014. A Do Not Resuscitate Order was issued my TMC medical staff pursuant to the living will. Family members were present when Ragland died on 07-09-2018.

On 07-10-2018, an autopsy was performed by the Dallas County Medical Examiner’s Office. The cause of death is pending toxicology.
